

Comprehensive virtual care for the entire spectrum of neurological conditions

Access TeleCare is a leading provider of teleNeurology services and solutions to U.S. hospitals and health systems. Our world-class neurologists can provide coverage anywhere in your hospital and across your health system whenever and wherever it's needed through the power of telemedicine. From emergent neurology and stroke care in your emergency department to neurohospitalists for inpatient care, Access TeleCare makes coverage possible where it's needed most – in your community.

Services

-  Stroke and Acute Neurology in the ED
-  Around-the-Clock Inpatient Coverage
-  Continuity of Care Follow-Up
-  24-Hour Remote EEG Interpretation
-  Outpatient Neurology Services

Outcomes

-  Reduce Transfers
-  Retain High-Acuity Patients
-  Increase Revenue
-  Champion Quality Improvement Initiatives
-  Support Stroke Designation and Certification
-  Deliver Excellence in Stroke Performance Measures

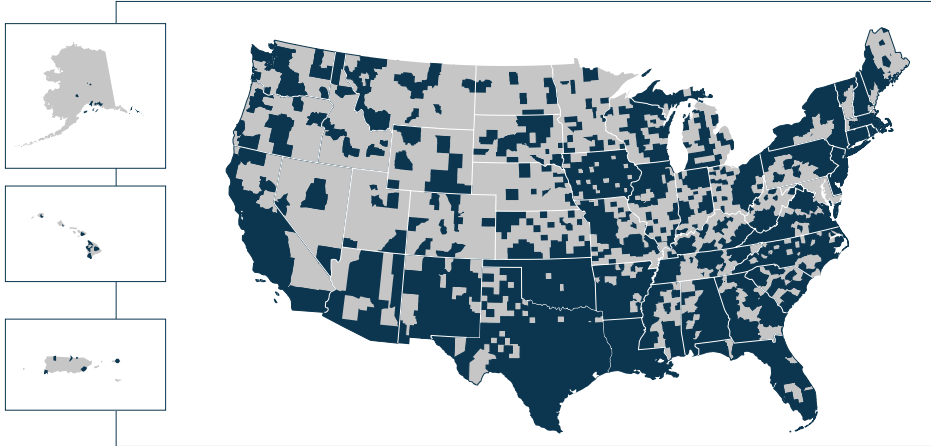

How we do teleNeurology better:

- ▶ **Rapid Neurologist-to-Screen Time**
Because "Time is Brain," Access TeleCare gets neurologists on screen quickly with our AI-enhanced telemedicine platform, TelemedIQ.
- ▶ **Custom Program Delivery**
We design our clinical programs to integrate into your hospital workflows and partner closely with on-site care teams.
- ▶ **Direct Documentation in your EMR**
Our providers work directly in your EMR and provide all required documentation.
- ▶ **Experience and Scale**
Over 480 teleNeurology programs have been implemented across the country – all accredited by third-parties – with a deep bench of experienced neurologists to meet your needs.
- ▶ **Orders, Not Recommendations**
We initiate immediate action, streamlining workflows, reducing liability, and improving patient care.
- ▶ **Layers of Redundancy**
With our pod structure we ensure there are zero coverage gaps.
- ▶ **Focused on Clinical Quality**
We deploy a rigorous system of quality review and management with regular F/OPPEs and long-standing accreditation with the Joint Commission.

of teleNeurology for our Partner

Access TeleCare is the largest acute specialty telemedicine provider in the nation

216+ million people in our virtual catchment area:

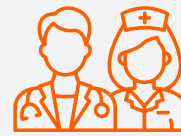

We provide telemedicine services to people in nearly 15,000 zip codes, representing 65% of the U.S. population.

1 million+
Annual Encounters

1 in 5 Hospitals
Served in the U.S.

2,600+
Telemedicine Programs

Telemed IQ: Telemedicine Platform

We've built the most reliable, secure telemedicine platform in the service of patient care

- **Scalable:** TIQ platform supports any provider-to-provider interaction across any specialty, clinical network, location, and on any web-enabled device
- **Robust:** enables rapid deployment of clinical provider resources to match supply and demand
- **Secure:** HITRUST certified technology
- **Reliable:** supporting over 1 million patient encounters a year with 99.99% uptime
- **Interoperable:** featuring real-time EMR integrations (e.g. Epic and Cerner)

About Access TeleCare

Access TeleCare is the standard bearer of clinical excellence in acute specialty telemedicine, providing high-quality care for patients in 1 out of 5 U.S. hospitals. Over the last 20 years, the company has delivered care in over 8 million patient encounters across multiple specialty service lines. As the first and longest-standing telemedicine organization to receive The Joint Commission's Gold Seal of Approval in 2006, Access TeleCare is leading the way to a better healthcare delivery system with clinically excellent tech-enabled services.
